(26-Nov-2018)

Other: (530) 872-6275

Domestic Long Hair

26-Nov-2018 Sedation - Draft

Sedation procedure

Sedated with 8utorphanol 0.06 mls IV, Dexdomitor 0.10 mls IV, Ketamine 0.03 mls IV:

Bandages removed from pelvic limbs - cleaned wounds gently with sterile saline. Dried feet and

applied

the gabapentin cream mixture: Gabapentin, Ketamine, Diclofenic gel, lidocaine, prilocaine. Let cream sit for 15 minutes and then rinsed with sterile saline. Dried feet and applied Honey cream mixture: Manuka honey, olive oil, coconut oil, bees wax

Applied Telfa pad, cast padding, cling, vet wrap and elasticon.

Bandage removed from thoracic limbs:

RTL has adaptic clear bandage over the wound. There is a tilapia skin graft covering approx half the wound. Some of the tilapia has slipped down off wound revealing a 1.5 x 2 area of granulation tissue with central area of bone exposure. Had to trim the tilapia here as it had dried out. Cleaned this area of the wound gently with sterile saline. And left the remaining tilapia in place with Adaptic bandage over it. Dried feet and applied the gabapentin cream mixture: Gabapentin, Ketamine, Diclofenac gel, lidocaine, prilocaine.

Let cream sit for 15 minutes and then rinsed with sterile saline. Applied Honey cream mixture: Manuka honey, olive oil, coconut oil, bees wax to the small area that did not have tilapia over it.

Applied Telfa pad, cast padding, cling, vet wrap and elasticon.

LTL has tilapia in place and Adaptic clear bandage overlaying. Did not treat this paw. We replaced the outer bandage and rewrapped with, cast padding, cling, vet wrap and elasticon.

Bandages changes will be due again on all 4 feet in 2 days.

MEDICAL HISTORY; 23-Nov-2018 to 25-Nov-2018

#### 26-Nov-2018 Progress note

Kara Smith, DVM

09:11

**PLANS** 

Superficial corneal ulcer

Continue BNP TID.

**Burn victim** 

D/C IVF today. Flush IVC q 8 hours.

Continue buprenorphine and BNP as directed.

#### 26-Nov-2018 Progress note

Tori Letner, DVM

12:35

**ASSESSMENTS** 

**Burn victim** 

Healing wounds.

**PLANS** 

**Burn victim** 

- Bandage changes of all 4 feet due in 2 days on 11/28/18. At that time we can remove or replace the tilapia skin graft if is has not adhered. If there is no tilapia available then okay to treat wounds with burn cream and manuka honey cream.
- 2. Cont with current plan and pain medications (buprenorphine) and BNP OU

08:12

May prefer dry.

PLAN5

Inappetence.

Dry food noted in FLOW.

Superficial corneal ulcer

Continue BNP.

#### 25-Nov-2018 Progress note

Petra 5toyanof, DVM

14:43

**PLANS** 

**Burn victim** 

Bandage change: Sedated with dexmedetomidine 0.05ml, ketamine 0.1ml, buprenorphine 0.15ml. Mildly reactive at end of bandage change.

Removed wraps.

RTL: fish skin and Tegaderm in place over dorsal antebrachial wound, burns to paw. Left fish skin in place.

LTL: fish skin and Tegaderm in place over paw. Left fish skin in place.

For burns without fish skins, placed honey on paws and placed Adaptic and Telfa over paws. Applied bandages x4.

Reversed with atipamezole IM.

If clean, pelvic limb bandages can be changed in 2 days, thoracic limb bandages in 2-4 days.

#### 25-Nov-2018 Progress note

Kara 5mith, DVM

19:20

**PLANS** 

**Burn victim** 

5W DVM that did bandages today - she said burns warrant pain meds.

Buprenorphine added TID to FLOW>

CLIENT INTERVIEW

General findings

Day 4 hospitalization - Vitals WNL. Eats well. Bandages changed yesterday.

**EXAM FINDINGS** 

Whole body

General findings

... - BAR, friendly cat.

Corneal ulcer OD - looks si. larger than yesterday.

Bandages in place X 4 paws. Shaved ventral chest and abdomen.

Singed face/healing well.

Good appetite.

**ASSESSMENTS** 

Inappetence.

Resolved.

Superficial corneal ulcer

Epithelium that is not healing may be sloughing. Hopefully this heals from the deeper layers up.

**Burn victim** 

Doing great.

Kara Smith, DVM

#### 08:12

#### CLIENT INTERVIEW

General findings

Transfer of care - Hospitalized 2 days ago for burns sustained in the CAMP fire.

Pt was sedated and had bandages placed yesterday after a day of IVF.

A Convenia and buprenorphine injection were given at 6 p.m Friday per treatment sheet. No

pain medications given since then.

Maintained overnight on LRS at 1S mls/hr, and 8NP ointment q 8 hours d/t a corneal ulcer

noted OD.

Eating just a little today - previously ate some chicken and A/D.

#### **EXAM FINDINGS**

Whole body

General findings

- . - Attitude: 8right, responsive, and alert - friendly

Ophthalmic Exam: Corneas clear and no ocular discharge, greasy eye OD,

small superficial corneal ulcer visible, no blepharospasm

Otic Exam: NSF

Oral: Moderate tartar and gingivitis

Nose/Throat: Normal Cardiovascular: purring

CRT - 1-2 sec

Mucous Membranes - Pink

Respiratory: purring

Abdominal Palpation: Normal palpation, no organomegaly, masses or

tenderness

Musculoskeletal: Normal gait, thin Body Condition Score - 4/9

Integument: bandaged X 4 feet, smokey coat, flea dirt/burned debris in

coat

Lymph Nodes: No lymphadenopathy

Genitourinary: No palpable renal or bladder abnormalities noted, external

genitalia palpate and appear normal, large urinary bladder Neurologic: Normal mentation, no apparent deficits

#### ASSESSMENTS

Inappetence.

Offered dry and ate readily.

**Burn victim** 

8andages changes yesterday at noon.

Superficial corneal ulcer

Healing.

Inappetence.

#### 24-Nov-2018 Exam

08:36

Travis Howarth, DVM

Pelvic region	External genitalia	Normal - External genitalia normal size and shape, no tumors or discharge appreciated.
Integument	General findings	<b>Ulceration</b> - All 4 feet Soot caked on feet
	Skin and haircoat	Normal - Healthy coat, no evidence of ectoparasites, alopecia or pruritus.
Lymphatic system	Peripheral lymph nodes	No Peripheral lymphadenopathy
Musculoskeletal	Posture	Normal posture
	Ambulation	Normal gait
Nervous system	Brief neurological exam	Unremarkable - CN 2-12 intact, no CP deficits, normal placing responses all 4 limbs

#### **ASSESSMENTS**

#### **Burn victim**

Severe dehydration and malnutrition along with burns to the feet It is difficult to tell how burned feet are due to the debris

#### **PLANS**

#### **Burn victim**

IVC

Fluids LRS 1S0 ml bolus 2 hrs>1S ml/hr

Give food and water

Did not want to eat or drink and first, but did about 6 hrs later

Convenia 0.4 ml SQ

Buprenorphine(0.3 mg/ml) 0.3 ml IV

Deal with wounds tomorrow, when cat is hydrated

TH

#### 24-Nov-2018 Progress note

**Dustine Spencer, DVM, Practice Limited to Surgery** 

14:00

#### ASSESSMENTS

#### Superficial corneal ulcer

#### **PLANS**

#### Burn victim, Superficial corneal ulcer

- Sedation
  - Dexmedetomidine 2S mcg, Ketamine 10 mg and Buprenorphine 0.04S mg IM Right thigh
  - Adequate sedation for wound evaluation,
  - Required mask with Iso 1-2% to complete clip, clean and bandage placement x 4 limbs
- Procedure
  - Shaved all paws and cleaned limbs with dilute chx soln.
  - · Soaked each paw with dilute chx and removed hemorrhagic debris and dirt
  - All four paws with second third degree burns, some digits on RTL with bone exposure
  - Right TL carpus with third degree burn approx 3 x 4 cm
  - Dried and placed pain salve on all lesions, left for 1S minutes and rinsed off with sterile 0.9% saline
  - Bilateral PL paws placed collagen powder and wrapped with light bandage
  - Left TL paw placed collagen powder and wrapped with light bandage
  - Right TL paw placed tilapia skin graft on carpal lesion and palmar aspect of paw/digits, covered in Tegaderm. Wrapped with light bandage.
- Patient awake by end of procedure
- FDT: OD 3-4 mm superficial uptake central globe. OS NSF. Applied BNP OD.
- Recovery
  - Smooth
  - · Patient remained cold. Placed under Bair hugger.
- IVF 1S ml / hr
- Bandage change approx 3-4 days
- RX BNP Ophthalmic ointment OD q 8
- DVM: Amy Grimm
